

CLAIMS

1. An aqueous suspension comprising loteprednol etabonate and at least one member selected from the group consisting of sorbic acid, salts thereof and p-hydroxybenzoic acid esters.
2. The aqueous suspension according to Claim 1 wherein a non-ionic surfactant is additionally contained.
3. The aqueous suspension according to Claim 1 or 2 wherein the suspension is an eye-drop.
4. The aqueous suspension according to Claim 1 or 2 wherein the suspension is a nasal-drop.
5. The aqueous suspension according to Claim 1 or 2 wherein the suspension is an ear-drop.
6. A method for improving redispersibility of loteprednol etabonate which comprises compounding at least one member selected from the group consisting of sorbic acid, salts thereof and p-hydroxybenzoic acid esters in an aqueous suspension containing loteprednol etabonate.
